

Orleans Improvement Association's

CAPE COD HYDRANGEA FESTIVAL GARDENS SATURDAY, JULY 20TH 10-4

IT'S A DOG LIFE,

248 Long Pond Road (Rt. 137), Brewster

There are lots of places to roam and relax in the many outdoor rooms of this yard. A mix of mature trees and natural stone dot the diverse terrain to set the stage for water features. The lush lawn entices a visitor around the next corner of plantings to enjoy yet another surprise. Rustic rod iron border fence helps to keep the dog out of the perennial beds and the small vegetable and herb gardens nestled against the house. Of course, Hydrangeas happen to pop up everywhere. From the deep, purple Rio blue array at the driveway entrance to the periwinkle Endless Summer hedge along a stone wall and the many vibrant shades of Proven Winner Citiline series, the blooms will astound. And It's no wonder this yard features so much beauty as the property owners have a deep-rooted knowledge of the garden industry. They are the founders of **Agway of Cape Cod!**

HYDRANGEA RETREAT,

100 Gibson Road, Orleans

Owners from Colorado have lovingly designed and planted their yard for plants that are at peak bloom in July when they are on the Cape. They are particularly crazy about hydrangeas and look forward to the arrival of new varieties each year. They now have twenty different types of hydrangeas and sixty hydrangea plants. The rose covered arbor in the front yard draws visitors to the hidden back yard which is awash with hydrangeas. The owners do all their own work and devote most of their vacation time here to gardening.

\$5.00 PER GARDEN, PAYABLE AT THE GARDEN
